	Quiet, easy to handle heifers that worked through the yards with a minimum of fuss. Had only been preg tested 1/2 an hour before assessment so had a little more run in them than usual. From a herd that is of a quiet disposition		
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	Large framed, voluminous females that are PTIC to a very Low Birth Weight Angus Bull (Hazeldean S166 - BW +0.5) to calve over a tight 46 day period. One Angus/Shorthorn Cross heifer in the draft. Nice, quiet small line of 8 head that are ideal for someone wanting to top up numbers or suit a small landholder. Heifers have grown out well and are not carrying any excess condition. Noted at Assessment was 1 x Heifer with an old pink eye scar, see last photo. Vendor also has another 24 x PTIC Heifers same description & joining in this same sale, only selling separate as they are vendor bred.
