Assessor Comments	A good line of Santa X steers, 200 to 325 kgs to avg 258.5 kgs (1hour off feed) An obvious tail has been removed., which included steers lacking muscle, condition or strong Brahman content. The steers are mid-way through weaning and are easy to handle in the yards. They are fresh in the coat and going ahead well in condition. This is a good opportunity to buy good quality Santa X flat back steers to put away. (Vendor happy to scan tags for buyer at no cost if required). Additional line of heifers in this sale as well.
