3 Head	Old pink eye scarring in one eye

Assessor Comments: A Quality line of EU Weaned Angus heifers, if your looking for weaners that will come home and not melt because of being unweaned these cattle are for you. The only way is forward with these heifers as they are well through the weaning process as it was done in mid January , a prefect article for the oats crop as cattle are in fresh condition and would steam ahead given a rising plain of nutrition. Heifers are out of good quality Angus cows with a base Bald Blair Genetics and were sired by quality Bald Blair and Gates Performance Genetics Angus bulls that were selected for their high marbling traits. Temperament is a stand out and no doubt these cattle would continue to grow into very quite cows. A great opportunity to get into quality females at prices that wont break the bank, Don't Miss out !!
