Assessor Comments	Buyers an exceptional line of weaned Angus steers, these steers have been weaned on day of assessment and will stay in the weaning yards until delivery. Their mothers purchased this time last year from the "Pitcalnie" herd dispersal. They carry Booroomooka & Glimandike genetics and the steers are sired by High Quality Hazeldean Angus sires. Purchased ex New England Hazeldean sales, and they always purchased at the top end of the sale and these steers are a testament to the genetics. These steers will be ideal to take through to feedlot entry weights or to MSA/Grassfed kill weights. Highly reccommended.
