| Assessor Comments  | A smart line of vendor bred & lifetime traceable steers. These cattle have plenty of breeding & show good growth, structure & confirmation for age. They would perform well on grain or grass. Four of these steers were treated with Orbenin Eye Cream at assessment for pinkeye in one eye & four had an old scar in one eye. No vision issues.                                            |                          |         |
