Comment on Fat Score 1 Cattle Any score 1 cows meet all fit to load requirements with condition being a result of mothering a weaner (removed) and a fresh calf.

Vendor Bred No
Vendor has owned stock for 6-12 months

Stock History Majority are vendor bred on Company properties with the odd cow externally purchased.

Lifetime Traceable	Vendor bred cows are thought to be LT however the purchased cows in the lot are unknown. Treat as not LT.
Grazing Conditions	Running on a lush coverage of Buffel/Mitchell grass. Top quality black soil country. Returned same
Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives
Health Treatments	Cows Vaccinated 02/08/2023 Botulism First Dose
Chemical Residue	Clear - No known history.
J-BAS Score	6
Vendor Comments	An opportunity for the successful buyer to purchase a run of good breeders to boost numbers into their herd. These young females are very easy to handle in the paddock and have the rest of their breeding future ahead of them.
Joining Details	Not Station Mated
Any Access To Bulls or Stags?	Yes, last access to bulls/stags: 12/02/2024
Joining Access Details	Not intentionally mated. Angus bulls were removed from mob 2 months ago.

Temperament

Yards	Crush	Paddock
Quiet: 177 head Slightly Stirry: 6 head Stirry: 3 head	Quiet: 172 head Slightly Stirry: 10 head Stirry: 4 head	Temperament not assessed in Paddock

While working through the yards these breeders moved quickly and would display signs of stress and or aggression when pressured or isolated from calf. Once they were assessed and released out of the crush they were again relaxed, I was able to move through them quietly to take photos with the odd cow still moving about. These cattle will settle well in the paddock.

Handled With: Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses

Notable Traits

	Traits
1 Head	Blight (calves)
1 Head	Capped hip (cows)
2 Head	Dog bite (calves)
2 Head	Dog bite (cows)
6 Head	Fly scarring (cows)
6 Head	Old blue eye scarring (cows)
1 Head	Small hernia (calves)

Assessor Comments: Buyers a large line of mainly medium to larger framed younger cows mostly (2-5 years) that have presented in store to forward store condition. These young females are currently doing a great job on their calves that have averaged 130kgs and mainly by the Clunie Range Angus bulls. Some of the cows are back in condition a bit as the tops of the calves are up over 200kgs but they are looking after there calves very well. Cows are a bit mixed in breed as they were sent down to Blackall from various other Paraway properties further north with the intention to be backgrounded up to heavier domestic feedlot entry weights. Obviously, these had the opportunity to the bulls prior to coming down so they didn't make the cut to be a feeder. These have all their life still ahead so with the size of the calves a quick rebate is possible later in the year with the sale of the weaners. Cows and calves are still good buying for a trade compared to PTIC females so don't dismiss these.
