Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives
Health Treatments	Cows & Calves Deloused 15/04/2024 Coopers Diazinon
Chemical Residue	Clear - No known history.
J-BAS Score	6
Joining Details	Station Mated bulls put in: 13/12/2023 bulls taken out: 15/04/2024 (125 days) Bull Breed(s): Ultrablack To the vendors best knowledge, this lot has had no access to bulls or stags aside from stated joining period.
Preg Tested?	No, this lot was not pregnancy tested.
Temperament	Yards: Quiet: 68 head; Slightly Stirry: 4 head Crush: Quiet: 70 head; Slightly Stirry: 2 head Paddock: Temperament not assessed in Paddock Cows worked through a very good set of modern new yards with a big curved race etc. They stood up very well in the crush whilst being weighed but those that were mouthed did resent it a bit but not uncommon. In the bigger yards whilst being moved around from yard to yard they were great with no temperament issues recognized at all. Buyers urged to allow cows to settle and mother up properly before being taken to their paddock.
Handled With	Bikes

Notable Traits	
	Traits
1 Head	Blue eye (calf)
1 Head	Dog bite on the stifle (cow)
6 Head	Fly rub neck (cows)
2 Head	Old blue eye scarring (cows)

Assessor Comments	A line of basically younger type cows best described as mainly medium frame that still have plenty of life left in them for further breeding. They present in store to forward store condition and for a good reason. They have absolutely cracking calves that average 171kgs swinging off them. The calves are very sappy (except for 1-2 a little bit drier). The bigger calves have been branded/cut so only the smaller calves still to be done. There is a lot of Buffalo Fly on them at the moment causing them a fair amount of discomfort but they were to be sprayed after assessment to alleviate this issue. There was one cow and calf that didn't make it to the yards as the calf is only small and isn't reflected in the weights of those that were weighed. The weight of the cow was also an estimate. Unknown why there is an extra calf at this stage. Season will allow to leave calves on the cows and keep punching milk into them. Cows will only reach medium weights as slaughter cows when their time is up.
Assessor	**Bob Jakins (Level 1 Accredited)** Phone: 0419 788 366
Delivery Period	22/04/2024 to 23/04/2024 (2 days)
Delivery Point	"Baynham" yards located approx. 14kms East N/E of Mitchell off the Warrong/Alma Downs road. Lat: -26.4458190023783 "S Lng148.088128651503 " E
