Pregnancy Terms	Vendor Terms apply. Tolerance: 10% Timeframe: 20 days

Quality Grades	
Very Good	91%
Good	9%

Temperament

Yards	Crush	Paddock
Quiet: 24 head	Quiet: 22 head Slightly Stirry: 2 head	Temperament not assessed in Paddock

Heifers over all were very easy to handle and very well behaved while being videoed in a lane way near the yards, Heifers were a little unsettled while being in the crush on portable set of scales but have been through the yards 4 times in a very short period.

Handled With Bikes

Assessor Comments An Outstanding line of EU Angus PTIC Heifers that are front paddock females. Heifers are very well grown and have all the attributes you want in future breeders, softness, length and femininity. Heifers are bred from a foundation of quality Angus genetics including Wattle Top, Glen Morgan and Kilburnie Angus. Heifers were apart of a larger mob and are a genuine sale only due to being surplus to needs, Joined as apart of their normal program heifers will commence calving in mid July for 8 weeks, the pregnancy tester noted that majority of females tested were pregnant in the first cycle . Heifers were joined to a Kilburnie & Highrent Angus bulls with high IMF indexing figures including IMF'S of 3.4 & 4.4 and low low birth weight figures of 2 & 2.7. Get above the game with quality Angus females that will bred on, Heifers that are not to be missed.
