Assessor Comments	A very tidy lot of 4 Angus heifers with their first calf at foot. There is 1 HBR heifer S343 - see Angus Australia link. These heifers are all sired identified. They display all the attributes that you would expect from well bred Angus females - bone, softness, length and capacity. They are doing a good job on their first calves. Calves are not marked - 3 bulls and 1 heifer. Pentire Stud prides itself on structure and longevity of their females. Pentire Stud is very focussed fertility and temperament. This is evident by how easy these heifers are to handle. All sired identified and sired by: HF Alcatraz 60Fpv and Pentire P10sv (a son of HF El Tigre 28Usv). Calves sired by Pentire N43. NB Vendor has another 5x5 HBR & APR heifers in same sale.
