	Cows were a pleasure to handle right throughout the drafting, weighing & photography process. At no stage cows showed any signs of agitation. This process was very quick as cows are well handled through Pibbon yards all the time.

Assessor Comments	A Quality Quiet line of predominantly large frame Red Angus cows presenting in forward/store to forward/prime condition, PTIC (2-5months) to Pibbon Red Angus bulls. Opportunity presents in purchasing plenty of youth with cows being 4% 2 years old (1st calvers), 38% 3 years old (2nd calvers), 50% 4-6 years old (3rd-5th calvers) and only 8% 10 years old which will benefit any intended breeding program for many years to come. Cows have a great temperament in which all the hard work has been done ready to commence calving in the early prime spring months. The Danson family pride themselves on producing genetically proven females and spare no expenses in sourcing the top Red Angus bloodlines for either there commercial or stud base herd. Note: 3 cows were seen to have a blue eye scarring only in one eye which was deemed non detrimental. Good breeders are the future of the cattle industry. BUY WITH UTMOST CONFIDENCE.
