Assessor Comments	A great line of PTIC Angus Santa cross cows that have been joined to an Outwest Angus Bull. In the lot, 17 cows were detected red tag 4 to 5.5 months in calf and 1 detected blue tag just behind the rest at 15 weeks gestation. These cows were purchased PTIC trade cows last year and have produced quality calves, calving down in September 2023. A sample of these cows were mouthed and were seen to be full sound mouth. Small number of cows were also seen to have slight red colouring and 8 head have white patches on their udder.
