Quiet: 1 head	Quiet: 1 head	Temperament not assessed in Paddock

	We handled two bulls to do assessment and both were very well behaved and easy to work. Even in crush they stood quietly on scales. These bulls have been handled since they were weaned at 10 months of age.
Handled With	Bikes , On foot , Vehicles
Assessor Comments	Presenting a very good quality vendor bred stud bull which has only ever been used as a cover bull for a couple of months by the vendor. This bull was only kept untill he had a second clearance test by the vet when originally tested which was ok. His figures and pedigree suggest he is an ideal heifer bull putting him in the top 1%. He is very mobile and healthy walking out well in the yard and showed good temperament when assessed. He is an AI calf and is sired by Coonamble Investment P20 out of a Granite Ridge Kaiser cow, Tooraweenah Q64 and is APR registered. Hardly having done any work he is in ideal condition to go straight into a mob and start his job.
