Temperament

Yards	Crush	Paddock
Quiet: 1 head	Quiet: 1 head	Temperament not assessed in Paddock

	We handled two bulls to do assessment and both were very well behaved and easy to work. Even in crush they stood quietly on scales. These bulls have been handled since they were weaned at 10 months of age.
Handled With	Bikes , On foot , Vehicles

Notable Traits	
	Traits
1 Head	Eye blemish (near side eye slightly cloudy)

Assessor Comments	Presenting a very good quality vendor bred stud bull which has never been used by the vendor. This bull was only kept untill he had a second clearance test by the vet when originally tested which was ok. His figures and pedigree suggest he is an ideal heifer bull putting him in the top 7% for calving ease. He is very mobile and healthy and showed good temperament when assessed. He walked out fine in the yard at assessment. He is an AI calf and is a son of Woodhill Patent out of a Tooraweenah Stud cow, Tooraweenah Q64, a daughter of GDAR Regulator and is APR registered. Having done no work he is in ideal condition to go straight into a mob and start his job. He is a ball of meat and bred to do a great job.
