	Cows are forward moving in large yards but were generally good to draft and handle. Odd cow stirred up when by herself but calmed down quickly when back in the mob.			
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs			
Assessor Comments	72 PTIC compostie cows in good forward condition. These cows are joined to Tennysonvale Simental Bulls and one Rockingham Santa Bull. They are predominately Charolais & Droughtmaster infused cows and were good to draft and handle after 3 days of mustering, preg testing and assessing. These cows were purchased as PTIC Heifers in 2021 from Condamine & Anakie and have done a great job on their prior calves. 58 Cows are PTIC Red Tags from 18 weeks+. 14 head are PTIC blue tag from 6-16 weeks. This is an honest line of young cows in their prime being 4-6 years old and have all raised calves each year prior. Only selling due to drier conditions.
