Cows are forward moving in large yards but were generally good to draft and handle. Odd cow stirred up when by herself but calmed down quickly when back in the mob.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs
Assessor Comments	91 Composite cows with 97 Calves at foot. These cows are in predominately store condition doing a great job on their calves. Calves are mainly sired by "Tennysonval" Simmental Bulls or a Santa Bull and a sample of 20 calves were weighed and ranged from 43-163kg to average 93kg. Cows are predominately Charolais & Droughtmaster infused and were good to draft and handle after 3 days of mustering, preg testing and assessing. 30 Cows are Preg Tested back in calf from 6-16 weeks and the balance are not detectable, but all cows are wet. They were purchased as PTIC heifers in 2021 from condamine and Anakie and are only for sale due to the drier conditions. They are an honest mob in the prime of their lives being only 4-6 years and have all raised calves each year prior. Buy with confidence.
