| Assessor Comments             | Top quality line of NSM Angus cows and calves. 2.5 years of age with their 1st calf at foot. Cows are well grown and come from a genetically very well bred herd. Heifers show very good frame and milking well for their first calf. They are large frame types and will continue to mature that way if given the right opportunities. Heifers carry a sound temperament and come recommended. Please view video to fully appreciate these young females. |                                           |                |
