Comment on Fat Score 1 Cattle

Predominately store to small percentage backward store condition. Given steers are on good pasture but very wet conditions for grass to have a strong body the cattle are "slippery". It is expected that they would travel with at least one spell over 1000km. Steers are all fresh, in strong condition. Recommend trucking at 34 to a deck therefore 1.5 deck in mob. Can be adjusted if purchaser buys both lots in this sale to suite B double unit.

Slightly Stirry: 4 head	Slightly Stirry: 4 head	

Cattle were very good to handle through the yards and on scales. The temperament of the mob was exceptional. Well suited to a smaller operation with smaller paddocks if required. Small % became agitated but settled quickly back in mob. Cattle where calm to handle. Very good to walk around the yards at close distance as noted in the video.
