Comment on Fat Score 1 Cattle	While a significant number of cattle are in Score 1 condition they are strong, healthy and improving. I don't anticipate any transport issues if good practice used for long distance.
Vendor Bred	Yes
Stock History	In 2023 season the vendors made the call to wean down to 80kg. These cattle are showing the impacts of a challenging start however they are strong, healthy and making the best of the season so far. Handled with drones, dogs, bikes and horses.
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable
Bloodlines	By Salsbury Plains Brangus Bulls
Grazing Conditions	Coastal native pastures containing seca & verano. Year round access phosphorous and dry season lick. All cattle have had exposure to Lantana. Returned same
Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives
WHP/ESI	Cattle are within a Withholding Period or Export Slaughter Interval for: Dectomax Pour On - ESI/WHP 42 days as of 23/04/2024

Health Treatments				
	Vaccinated	01/05/2023	5 in 1	First Dose
	Vaccinated	14/06/2023	5 in 1	Booster
	Vaccinated	14/06/2023	Longrang Bot	First Dose

Eligibilities	Russian Eligible Saudi Eligible
J-BAS Score	JBAS 6

Vendor Comments	Initially bred for replacement heifers, they have changed focus from breeders. They are proud of how quietly their cattle handle the ability to process with minimal staff and fuss. Very pleased with their progress after such radical weaning.

Joining Details	Not Station Mated
Any Access To Bulls or Stags?	Yes, last access to bulls/stags: 22/04/2024
Joining Access Details	These heifers have been running together with mixed breeders including bulls, however given the light weight, pregnancies are not expected however no guarantee offered.

Quality Grades		Store Condition		Muscle Score	
Good	95%	Store	65%	C	30%
Fair	5%	Bck Store	35%	D	70%

Temperament

Yards	Crush	Paddock
Quiet: 39 head Stirry: 1 head	Quiet: 35 head Slightly Stirry: 4 head Stirry: 1 head	Temperament not assessed in Paddock

These cattle handle very well. Like most cattle in our region some can become agitated under pressure or in the crush, we noted 5. Once exiting the crush they very quickly settled with the mob with the exception of one heifer that remained agitated for some time.

Handled With	Bikes , Dogs , Horses , On foot , Drones

Notable Traits

	Traits
1 Head	Dog Bite
9 Head	Ringworm
2 Head	Wart

Assessor Comments	A very quiet line of heifers ready to steam ahead if given the feed opportunity. Attention to breeding was evident even in the more lighter condition cattle. Radically weaned in 2023 due to poor season and ready to get on the move now. The vendor prides themselves in the tight calving pattern with a very big focus on fertility in the herd. If chosen to go on as breeders, their fertility should shine through. While in ticky country the cattle presented without any heavy tick burden. * Note skin blemishes noted in the comments appear to be dried and healing ringworm, one dog bite hfr across back photos are included to illustrate that. In general I have described them as store and backward store, however they are in good health, I feel confident they will respond well to feed. Greentop is a coastal property therefore like most in the region they have access and exposure to Lantana and a reputation of high performance when shown good feed. ** 3 Lots today from this Vendor 5 decks total.
Assessor	**Paul McCormick (Level 2 Accredited)** Phone: 0419 031 777 Parallel Assessed By : Matthew Slaughter

Delivery Period	30/04/2024 to 02/05/2024 (3 days)
