Comment on Fat Score 1 Cattle	While a significant number of cattle are in Score 1 condition they are strong, healthy and improving. I don't anticipate any transport issues if good practice used for long distance.
Vendor Bred	Yes
Stock History	In 2023 season the vendors made the call to wean down to 80kg. These cattle are showing the impacts of a challenging start however they are strong, healthy and making the best of the season so far. Handled with drones, dogs, bikes and horses.
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable
Bloodlines	By Droughtmaster and Senepol Bulls over a purchased line of Brah X Cows
Grazing Conditions	Coastal native pastures containing seca & verano. Year round access phosphorous and dry season lick. All cattle have had exposure to Lantana. Returned same
Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives
WHP/ESI	Cattle are within a Withholding Period or Export Slaughter Interval for: Dectomax Pour On - ESI/WHP 42 days as of 23/04/2024

Health Treatments	Vaccinated	01/05/2023	5 in 1	First Dose
	Vaccinated	14/06/2023	5 in 1	Booster
	Vaccinated	14/06/2023	Longrang Bot	First Dose
	Antibiotic	02/04/2024	Alamycin (one head only)	

Eligibilities: Russian Eligible Saudi Eligible

J-BAS Score: JBAS 6

Vendor Comments: Initially bred for replacement heifers, they have changed focus from breeders. They are proud of how quietly their cattle handle the ability to process with minimal staff and fuss. Very pleased with their progress after such radical weaning.

Joining Details: Not Station Mated

Any Access To Bulls or Stags?: Yes, last access to bulls/stags: 22/04/2024

Joining Access Details: These heifers have been running together with mixed breeders including bulls, however given the light weight, pregnancies are not expected however no guarantee offered.

Quality Grades		Store Condition		Muscle Score	
Good	93%	Store	70%	C	15%
Fair	7%	Bck Store	30%	D	85%

Temperament

Yards	Crush	Paddock
Quiet: 39 head Stirry: 1 head	Quiet: 35 head Slightly Stirry: 4 head Stirry: 1 head	Temperament not assessed in Paddock

These cattle handle very well. Like most cattle in our region some can become agitated under pressure or in the crush, we noted 5. Once exiting the crush they very quickly settled with the mob.

Handled With: Bikes , Dogs , Horses , On foot , Drones

Notable Traits

	Traits
1 Head	Healed Abcess
10 Head	Ringworm
1 Head	Wart

Assessor Comments: A very quiet line of heifers ready to steam ahead if given the feed opportunity. Attention to breeding evident even in the lighter condition cattle. Radically weaned in 2023 due to poor season and ready to get on the move now. . While in ticky country the cattle presented without any heavy tick burden. It's noteworthy that skin blemishes noted in the comments are dried and healing ringworm in the main with some fly bite on those sites. One heifer had a healing abcess treated with long acting penicillin. Photos are included to illustrate that. In general I have described them as store and backward store, however they are in good health, I feel confident they will respond well to feed. Greentop is a coastal property, like most in the region they have had exposure to Lantana and a reputation of high performance when put on good feed. ** 3 Lots today from this Vendor 5 decks Total
