|                                   | Excellent group of quiet mixed sex weaners that work very well in the yards and paddock. Weaners have just come off their mothers but look to have settled pretty well, they were no trouble to draft, weigh and work up the crush.                                                                                                                                                                                                                                                                                                                                               |     |                                            |     |                                        |      |              |     |

| Assessor Comments                 | A very good line of vendor bred Droughtmaster based mixed sex weaners. 10 Steers, 32 Micks and 77 Heifers currently being weaned and educated. Ideally suit restockers or feedlot backgrounders, these cattle have a very good reputation for performance being bred in lighter desert upland spinifex type country they are on the move and ready to go. Please Note: 1 Heifer was noted at assessment as not having a brush on the tail also any No 3 Steers that may be shown in the videos are NOT included in the assessment and are NOT included for sale in this offering. |     |                                            |     |                                        |      |              |     |
