	The vast majority walked on & off the scales calmly without rush. In general they are free moving & require normal steadying through gates, the pound & race with 15 quick off the scales through the side gate & agitated if cornered however if handled quietly respond in kind. Free moving when walking through the yard for photos showing normal flight zone. The Mt Cornish cows are quiet & well handled.

Assessor Comments	Good quality Santa & Santa cross steers from a large frame herd of quality Santa & Santa x cows. The steers are large frame in strong store condition offering a tremendous opportunity to add weight to frame. I would expect these cattle to perform well on good quality feed. The Mt Cornish herd are noted performing cattle having infused top quality Santa genetics over large frame quality Shorthorn cows over many years targeting the feeder and weaner market. To be offered as a fair and even run of 2 lots x 96 from 192.
