Temperament

Yards	Crush	Paddock
Quiet: 68 head	Quiet: 61 head Slightly Stirry: 7 head	Temperament not assessed in Paddock

Heifers were very good to handle in all areas of the yards and also considered quiet when moving from yard to yard. In the crush they were generally quiet even whilst being fitted with an NLIS device. Generally, the temperament is not an issue at all. Buyers should be warned however, most cattle need to be settled down on arrival after a truck trip and in strange surroundings before they are shown the bush gate.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses
Assessor Comments	Buyers a good quality line of heifers best described as Composites. These heifers have been bred in light forest type country so I would anticipate excellent weight gains on better quality heavy developed scrub soil country. Vendor is a regular user of A+ and we are finding repeat buyers operating on these cattle. They are in good condition and are ready to power ahead on grass or crop. These heifers will suit all markets including Coles and Woolworths and are well worth your consideration. Buyers please not the vendor also has a run of lighter heifers and steers in the sale.
