Vendor Bred: No
Vendor has owned stock for 2-6 months

Stock History: The Majority of the steers are vendor bred. With only a small sample being purchased as the progeny off a cow and calf unit.

Lifetime Traceable: 100% of cattle in this lot are Lifetime Traceable

Bloodlines: Steers mainly sired by Monivae 3/4 Simmental Bulls with one Charolais & Droughtmaster bull. Cows are mainly Droughtmaster, Charbray & Brahman X cows .

Grazing Conditions: Whilst running with their mothers steers have been running on green improved pasture of Bambatsi and buffel with natural grasses.

Returned to: Steers will be weaned in yard & fed good quality hay, they will also be let into smaller fresh paddocks where they will be worked with bikes and dogs.

Burr/Seed in Coat: No Burr or Seed of weeds declared noxious observed in the coats at assessment

HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives
Vendor Comments	Selling as normal turnoff.
Temperament	

Yards	Crush	Paddock
Quiet: 83 head Slightly Stirry: 4 head	Quiet: 80 head Slightly Stirry: 7 head	Temperament not assessed in Paddock

For steers that have removed from their mothers they were quite settled in yards and in confined spaces. It was noted some steers appeared to be self weaned. Steers will be handled in yards for 3-4 days from assessment then let out and worked in a paddock up until delivery with bikes horses and dogs.

Handled With	Bikes , Dogs , Horses
Assessor Comments	A good quality line 87 Simmental/Simbrah cross steers. Steers have plenty of bone and stretch to take through to feedlot or heavier kill weights. Steers mainly sired by Monivae 3/4 Simmental 1/4 Simbrah Bulls with one Charolais & Droughtmaster bull. Cows are mainly Droughtmaster X, Charbray & Brahman and Brahman X cows. Please see photos and video for own satisfaction. It was noted some steers appeared to be self weaned. Steers will be handled and fed good quality oaten hay in yards for 3-4 days from assessment then let out and worked in a paddock up until delivery with bikes horses and dogs. At assessment it was noticed that one steer with a slightly damaged horn it is not detrimental. Majority of the steers are vendor bred however, a small sample are not vendor bred. A great line of weaned steers that will continue to move forward and be a quality asset to any steer operation to suite any market.
