Assessor Comments	A great line of Angus x Angus Steers to continue on with. Bred out of very high quality Angus cows ex the northern tablelands district (Wattletop and knowla Angus blood) and by the Greswick Angus bulls. these steers will lot disappoint. They carry great structure and confirmation and will make top quality feeders or heavy msa weights. Steers have come through a very tough spring and responded to good feed since the break in November. Grain and antibiotic free these steers have all the trademarks of quality and breeding behind them. Highly recommended. lwr at assessment 252-324kg to avg
