Assessor Comments	A great opportunity to purchase a smart line of Angus steer weaners, 8-9 months of age (July/August 2023 drop), yard weaned at assessment. These steers are by Waitara and RDM bloodlines and are well grown for age. They present in fresh forward condition ideal to grow out for feedlot, trade or export markets with a small tail taken out. In the past they have been normally retained and sold at feedlot weights late winter early spring. 2 steers have small spot of white under flank, 1 steer had small amount of warts on head. Steers are well handled and are up to date with all animal health.
