Vendor Comments

Annual sale of steer weaner calves. Steers were all yard weaned for 10 days. They were walked in and out of yards through-out weaning process and are good to handle.

Assessor Comments	A good to very good line of weaned angus steers that present in forward store to store condition. Steers display great weight for age and plenty of shape to take on as feeders or heavy kill weights. The steers have been virtually supplementary fed since weaning as limited available pasture and have done very well since then. Good steers to put away for the winter. If B-Double required agent can assist with transport to wagga market at buyers expense.
