Assessor Comments	26 Large framed Angus cows that have PTIC to the LONGFORD STATION stud Wagyu bulls for a suggested calving of the 2/9/24. These cows weaned exceptional F1 weaners 4 weeks ago and they have picked up in condition and on the do. The weaners off these cows have been performing exceptionally well in the feedlots hitting target weights and coming back with marble scores of 7+ when processed. Two Stud sires have been used over these cows specifically with high Tajima content. One bull being by the super sire LONGFORD MR AWESOME and the other by TWA SHIKIKAN both proven performers for the F1 markets.
