	Cattle are good to handle and flowed through yards well. 2 heifers became nervous when singled out.		
Handled With	Bikes , Vehicles		

Assessor Comments	A quality line of 34 x 20-21 month old PTIC Shorthorn heifers, 'Weebollabolla' and 'Yamburgan' blood, joined to low birth weight 'Nampara' blood Angus bulls (tag T01, and T07) from the 07/09/23-13/12/23. The Stuckey family have been breeding Shorthorns based on 'Weebollabolla' bloodlines for over 50 years, but in the last 10 years, 'Yamburgan' bloods have been introduced to the 'Mookabri' herd. These cattle are renowned for their fertility, large frame with wide pins, good temperament, high milk production, and easy doing ability. *Buyer's note; some heifers are showing signs of ringworm, not considered detrimental to health, and one heifer noticed to have black patch on rump. Cattle are PTIC but are unable to be displayed as so, due to new AuctionsPlus terms and conditions.
