Assessor Comments	Buyers, to be offered is a neat line of 8 year old vendor bred and classed in PTIC Cows. These cows are of pure Hazeldean Blood in which the Lonergan family have been purchasing bulls from for over 15 years mainly selecting on traits such as calving ease, early growth and temperament. These cows present good depth and are medium to large frame producing quality weaners each year. Calves have only been weaned off these cows 3 weeks prior and present in forward store to prime condition. Due to the crush mouthing setup, 2 out of the 10 head were mouthed and sound (refer to pictures). They have been joined back to a Hazeldean Bull (ID in pictures) and are all scanned in at 5 months of pregnancy to commence calving approximately mid August. These cows are for genuine sale and are only being sold due to a bull problem during their normal joining window which led to these being joined out of alignment. **Please note, 1 cow has a long back left toe (pictured) however it does not impede her.
