Handled With	Girls were a bit offended after being preg tested and run through the yards the day before. Quite a few getting a bit stirred up from this process. None of them were being irrational, just quite anxious about the potential of being preg tested again. Sensible in the yard to walk amongst, just a few with a slightly bigger flight zone that made their way to the back of the mob. Bikes , Dogs , On foot , Vehicles

Assessor Comments	B Double load of nice, long bodied, true to type Angus Heifers that will grow out to be moderate framed, productive breeders. Preg tested in calf to a L.B.W Scott's Angus Bull. These heifers were brought for their long deep bodied structure and good square backs, and the Scott's Angus sire they've been joined to should compliment these attributes and produce good solid little calves. Scanned up and ready to drop a calf within the first few days of August and have a good calf firing along by mid Spring.
