Other Joining Details	Joined & PTIC to a Low Birthweight Heifer Bull - Bowmont S016 (Birthweight +2.7)

	Muscle Score C70% D30%		
Temperament	Yards	Crush	Paddock
	Quiet: 25 head	Quiet: 23 head Slightly Stirry: 2 head	Temperament not assessed in Paddock
	Quiet, easy to handle heifers that worked through the yards with a minimum of fuss. Had only been preg tested 1/2 an hour before assessment so had a little more run in them than usual. From a herd that is of a quiet disposition. Recommended temperament		
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	Soft, feminine females that are PTIC to a Low Birth Weight Bowmont Angus Bull. These heifers were pregnancy tested in January and were selected as they were (in the vets opinion) pregnant in the first cycle of joining. Confirmed pregnant again on assessment day to calve over a tight 43 day period, but should calve in the first half of that period (in vets opinion). Moderate framed, roomy heifers from a high grade, productive & fertile Angus herd that will be an asset to any property. Heifers have grown out well and are not carrying any excess condition. Reluctant sale, vendor would like to keep, but you can't keep them all.
