Assessor Comments	A very neat line of quality Monaro bred Angus heifers. These heifers are well presented in ideal condition for this stage of the pregnancy. They are preg-tested for a tight calving period in the spring. The vendors have joined them to an excellent Ardrossan bull with a birth weight of +3.2 and some outstanding carcase figures. The bull is in the top 1% of the breed for retail beef yeild and the top 6% for EMA. The heifers show good frame and style and will mature into excellent breeders.
