Assessor Comments	Located in the heart of the Upper Murray, Khancoban Station are well known & highly regarded Angus Beef producers. Previous winners of the MLA 'Most Outstanding MSA Beef Producer award', and most recent AusMeat Feedback of +4 IMF for herd average. With the tightening of their calving window, Khancoban Station are offering the opportunity to secure some of their tightly held genetics with the sale of their September/October calving cows. 10+ years of pure Rennylea Angus genetics, sparing no expense when selecting sires with desired traits. These are ,young, healthy, classed-in breeders. Females with the hard work behind them, and the pressure of that first calf out of the way, all successfully producing a calf in their first attempt at motherhood. These young 'prime of their life females' will make ideal foundation breeders to build a herd on, or inject years of quality genetics in to your existing operation.
