	Quiet: 8 head
	Heifers were good to Handle throughout assessment, Heifers showed typical Bos Indicus characteristics and did like to be given room and time but were very settled all the same. 1 Heifer did show signs of unsettlement but settled back in mob once given space.
Handled With	Bikes , Dogs , Horses , Vehicles
Assessor Comments	Buyers a Quality Line of Purebred Droughtmaster Heifers, Heifers are bred by Rodlyn Droughtmasters and are their annual draft of commercial sale heifers. Heifers are neatly Polled and carry some of the leading Droughtmaster Genetics. Please note heifers did have a very short window of approx. 3-4 days to a Simbrah bull in late April. Please note Heifers were not individually weighed as scales were not available on Day of assessment. Weights are a visual appraisal in the yards. Please remember this on Purchasing. Heifers are very well grown and would make lovely replacement Breeders. 1 Heifers were slightly un settled on assessment. 1 other lot in same Sale. These are the slightly younger of the 2 mobs.
