Assessor Comments	Offering 73 VGQ Angus and Angus Cross Weaner Steers. The steers averaged 271kg live at assessment after being weaned three days earlier. The steers are all branded No.4 and are 5 to 8 months old showing good weight for age. They are all sired by NB Genetics and Carabar Angus bulls that are selected for early growth. The steers are well handled and are already quite quiet, even after only being off their mothers for three days at assessment. Please note 3 steers were sighted with old blight scarring when assessed. These steers will continue to be weaned in the yards and handled through to delivery with access to plenty of hay and Anipro. Don't miss this opportunity to secure a well bred, two deck line of weaned steers that have had all the hard work done.
