	These steers are good to handle through the yard and in the paddock. The cattle listed and slightly stirry are cattle that become uneasy when isolated or excess pressure is applied.		
Handled With	Aerial (Helicopters, gyro's and planes) , Dogs , Horses		
Assessor Comments	Buyer a quality line of young flatback steers on the do. These steers are bred in light country and are grow out to lovely domestic feeders on good pastured country. These steers display good length, frame and softness along with good temperament making them ideal cattle to purchase and background through to heavy feeders or grass fed bullocks. The steers in this lot are from a breeding program that attracts a lot of repeat buying competition as the cattle are noted for their performance on both grass and grain. A great line of steers not to be missed. Please note the vendor does have another line of steers in the same sale.
