Assessor Comments	Nice line of vendor bred, growthy Poll Hereford heifers that were being retained for breeding, however with the sale of a property by the onwer, they must be sold. Heifers are ideal for breeding or fit feedlot specifications and have been pregnancy tested to make sure they are all empty. Heifers were weighed after 4 hours in the yards, weighing 365kg to 487kg to average 411kg with an estimated delivery weight of 397kg. 10 heifers have old blight scars and 1 heifer has horns - see photos to satisfy self. Cattle have been handled with bike / side-by-side and dogs and were good to handle during assessment and preg testing.
