	Vaccinated	27/02/2024	5 in 1		Second Dose
	Vaccinated	27/02/2024	Vitamin ADE		First Dose
J-BAS Score	6				
Vendor Comments	A great opportunity to buy a very smart line of EU angus heifers that 100 % Glenavon Angus genetics, only being sold as they are surplus to breeding requirements. Grass fed and antibiotic free.				
Joining Details	Not Station Mated				
Any Access To Bulls or Stags?	To vendor's best knowledge, this lot has had no access to bulls or stags.				
	Quality Grades Very Good 91% Good 9%				

Temperament	Yards	Crush	Paddock
	Quiet: 22 head	Quiet: 22 head	Temperament not assessed in Paddock
Handled With	heifers were very easy to handle in and around the yards and very sensible when getting videoed. Bikes , Dogs		
Notable Traits	Traits 2 Head heifer had white markings under belly region to navel. 2 Head Old pink eye scarring in one eye		
Assessor Comments	A very astute well bred line of EU Angus weaner heifers that are 100 % Glenavon angus blood. This line of future breeders will not only suit the the accredited EU breeders but any one looking for a very smart female to top up there herd or to be base for their future herd. Heifers are well grown at 8-10 months and averaged 283 kgs at assessment. Heifers are famine types that show stretch and softness that should continue to grow into lovely females. A focus and emphasis is put on IMF, 600 day weight, mature cow weight and milk in the EBV traits when selecting bulls for the Glendon herd. This annual draft is due to heifers being surplus to requirements and now offers a great opportunity to any one to fast track their production plan by introducing these heifers backed with quality Glenavon genetics that has been built up over many years. A rare chance to capitalize on a deflated market with such quality females.		
Assessor	Steve Daley (Level 2 Accredited) Phone: 0499 898 561
