Assessor Comments	40 Angus heifers with high quality genetics- sired by Coolie and Coffin Creek Stud Angus Bulls. "Wanaka" bred females always display length, bone and thickness and this lot of heifers are no different. These heifers give purchasers the choices of - growing out to future breeders or grain/crop finish for Supermarket or other MSA markets. Very well educated heifers that worked through yards easily. They were weaned early due to the season for the second half of 2023. When weaned they were fed DDG pellets, silage and hay. Since a couple of recent showers they are doing very well on a fresh pick and should continue to do so if given the opportunity. Plenty of upside and options this 40 weaned Angus heifers.
