Assessor Comments	All the black coated heifers including MPC angus and Speckle cross calves. Some are showing a minor amount of ear & fine skin from a composite background. A nice line of EU Angus & Speckle Park Cross heifer weaners. 19 head of 300kg ,33 head 270-299kg.. Heifer calves showing plenty of stretch and quality expected from an outstanding herd. Considered these easy to handle with loads of potential. Properly yard weaned & bunk trained ~after a drench , vaccine and multimin they look primed to perform quickly on good feed & crop. A recent kill of older brothers marbled an average of 3.73 for 108 head off feed. A nice line of fattening hfrs to suit most markets or join later.
