Assessor Comments	On offer are a quality line of 34 Angus weaner heifers that are 8 to 9 months of age and average 250kg at assessment. Weighed 220kg - 308kg at assessment. Heifers were purchased as genuine vendor bred calves and are of great quality being Millah Murrah Angus & Te Mania Angus bloodlines. They are a very even line, also being very true to type and very quiet, beautiful to handle. Perfect future breeders or would also be perfect heifers to background and feed on for trade. Heifers have been through a tough/dry Summer period/early weaning, after some decent rain they are now on the do FAST and will go ahead and exceed expectations. NOTE - Heifers are up to date with health treatments, any heifers that had a weeping eye have also had them treated. With the smell of rain about, a great opportunity to purchase some high-class Angus weaners to take on into a season shaping up to be ideal for trading and taking on cattle. Vendor has a younger line of the same draft in this same sale.
