Assessor Comments	Buyers a good opportunity to secure a 4 deck line of PTIC crossbred Cows , Mostly young to medium aged all in a tight 4-7 month pregnancy window. These Cows have shown their resilience and fertility by raring a 280 kg weaner through very trying conditions last year in the Mulga and getting back in calf, their weaners were removed 6 weeks ago and they have freshened up considerably since and will continue to do so on good feed. The majority of cows in this mob show the quality and fertility to be an asset to most breeding herds and have the added bonus of being in calf to Good Quality black bulls. Please note 1 cow has dog bite across shoulders , 1 cow missing part of tail 2 cows with old blight scarring in 1 eye and a few have old fly rub marks.
