Assessor Comments	A line of predominantly Ultrablack cross young cows/heifers that present in store condition and have only had their first calf weaned off them in late March. Buyers, these cattle have been running in lightly timbered hill country & have a reputation for doing ability. Given the opportunity on better feed they would make ideal future breeders or alternatively give the purchaser good compensatory weight gains on crop or a high protein feed ration. Regrettable sale for the vendor due to lack of summer rain resulting in minimal feed coming into winter. These heifers were preg tested empty on 25/4/24.
