Assessor Comments	A well bred line of Angus heifers ex the Breeder. These heifers are predominantly Booroomooka and Bowen blood and are out of a large commercial herd sought after by feedlots as the cattle produce marbling results time after time. They have not seen a bull and are ready to be joined or fed. Majority of these heifers are 20-22 months but there are 10 heifers that are aprox 27 months. The older heifers were mouthed and had not yet cracked 4 teeth. Please note their are 5 heifers with old eye scars in one eye and one with a scar in both eyes. Vision not affected.
