	Overall these females were good to handle. A couple of females were unsettled when pressure was applied in the yards but once taken off they settled down. Cattle handled well through the race/crush and on the scales. These females have been educated to move when pressure is applied but also settle when the pressure is off.

Assessor Comments	Quality line of 2022 drop PTIC Angus heifers. Heifers on offer are PTIC for a tight 3 week calving to commence mid-September 2024. Joined to low birth weight & industry leading Bongongo, Dunoon & Milwillah Angus Sires (EBV's attached). These cattle on offer have 30 plus years of Angus breeding running through their blood, with the vendor selecting high indexing sires from Bongongo, Milwillah & Hardhat Angus studs, with a focus on 400d/600d Growth, Positive fats, Milk, Temperament & Fertility. These females will mature into highly productive breeders which will offer great genetic gain for the purchaser running a self-replacing herd.
