Vendor Comments

Tough decision to sell out our core females, but have decided to swap over to restocking, and get out of breeding.

	Exceptional females to handle. Well educated, well behaved, and a pleasure to assess. Preg tested 2 days prior in the same set of yards, despite this, all females were well mannered leading in to the force and up the race. Just the one cow that was a bit anxious, stomping on the scales, listed above as slightly stirry.

Assessor Comments	*Complete Herd Dispersal* Impressive line of the highly regarded Bleeser family core breeders. This impressive line of middle aged, highly reputable, Spring calving females are heavily classed on an annual basis for feet, udders and temperament. The Bleeser herd was initially built up from the purchase of PTIC Ex stud cows, direct from Landfall Angus. Then selecting high indexing, Landfall Angus sires, targeting Bulls with strong maternal traits, being milk, birth weight, calving ease & docility, & targeting top carcass attribute for EMA, IMF, 400DW & positive Rib & Rump. These long, deep, proper built females fill out the whole crush & are just pure quality. Breeders that will inject years of methodically constructed genetics in to your herd and produce you those 400+kg weaners as they've done so for years. Cattle that come with the agent & assessor's highest recommendation. Buyers please Note. Vendor has another 2 lots in same sale.
