Assessor Comments: A very good quality line of weaned JULY/SEPT '23 drop heifer calves, presenting in very fresh condition & exhibiting excellent carcass shape with squareness & softness in abundance. These Speckle Park cross heifers have been sired by WATTLE GROVE Speckle Park sires (WGS P110 & WGS M153) & are presenting with good evenness & consistency of type across the mob. They are out of large framed cows, & possess the breeding potential to develop into heavy future breeders, whilst also maintaining the carcass shape & early maturity required to finish into Trade markets as yearlings for a fattening operation. These heifers would normally be grown out & retained by the vendor as replacement breeders however, cow numbers are currently at capacity. Attractive, quiet cattle that would grow out into lovely quiet future breeders given the opportunity. Vendor has 35 weaned steers from the same drop on offer this sale as well.
