Well educated, inquisitive & placid to handle with 4 getting fidgety when confined in race or weigh box - the second time through the race for the day. The heifers settled quickly when back into back into the mob. As seen in the videos they are calm & inquisitive when walking among them for photos.

Assessor Comments	42 very good quality Angus cross #3 heifers 16-20 months & PTIC 4-6 months. Vendor bred by Banquet Angus bulls from a great herd of large frame Droughtmaster, Droughtmaster cross & Red Brahman cross cows. Front paddock heifers showing great length, depth & bone structure and a pleasure to handle. Good clean coated and very tidy around the head with a large majority of polls. Visually there may be 2/3 heavier in calf - as noted earlier a large Angus/Red Brah x weaner bull gained unplanned access to the total heifer mob - he was a fair calf with similar traits to the heifers so potentially no compromise.
