Temperament

| Yards | Crush | Paddock |
|---|---|---|
| Quiet: 7 head<br>Slightly Stirry: 3 head | Quiet: 7 head<br>Slightly Stirry: 2 head<br>Stirry: 1 head | Temperament not assessed in Paddock |

The cows worked well through a very good set of yards, they were settled in the yards with 3 cows being slightly stirry while being preg tested. They did not settle as well AFTER being pregnancy tested and assessed and a few remained slightly agitated and moved off small amounts of pressure. Please see video.

| Assessor Comments | ***GENUINE HERD DISPERSALE*** A rare opportunity has presented itself to purchase a very good quality line of Stud Brangus cows. At the time of assessment 2 of the cows preg tested as undetectable, wet cows with calves at foot. All the cows including the 2 empty cows are continually joined and will remain running with the bull until delivery. The remaining 8 cows have preg tested in calf, gestation ranging from 4 to 6 months. These cows are genuine breeders that have raised a calf and got back in calf each year. They are very good quality, medium and large frame cows, well handled, big boned, and fertile. |
