Assessor Comments: A line of mostly very good quality vendor bred PTIC F1 Wagyu cows. They are rising 7 years old and are 60% Medium framed with the balance large framed. Cows are sired by registered Sumo Wagyu bulls (SMOFK00177 & LBFFL00905). The cows were preg tested by a registered vet on 03/05/24 and are all 3 - 5 months in calf. They are in calf to registered Kaputar Wagyu bulls (KPCFP00236, KPCFP00240 & KPCFP00243). The progeny of these cows and these sires were sent to a major feedlot this year and their AWA Feeder Check results are attached. Cows eyes, feet and udders are in line with cows of this age. These are functional F1 cows that had good quality weaners removed from them just prior to assessment. Please note vendor has another line of 10 older cows (all mouthed as sound mouth) and a line of 38 cows in this sale with same joining details to make a full B double.
